

What is SARE?

Since 1988, the Sustainable Agriculture Research & Education (SARE) program has been the go-to USDA grants and outreach program for farmers, ranchers, researchers and educators who want to develop innovations that improve farm profitability, protect water and land, and revitalize communities. To date, SARE has awarded over \$1.5 million to more than 23 initiatives [1].

SARE is grassroots with far-reaching impact

Four regional councils of expert practitioners set priorities and make grants in every state and island protectorate.

SARE communicates results

SARE shares project results by requiring grantees to conduct outreach and grower engagement; and by maintaining an online library of practical publications, grantee-produced information products and other educational materials.

SARE: Advancing the Frontier of Sustainable Agriculture in...

Mississippi

Project Highlight: *Advancing Opportunities for Women Farmers*

Women farmers accounted for 30 percent of farmers nationwide in 2012, according to the Census of Agriculture, and 14 percent of them were principal operators. But while those numbers are encouraging, support and outreach is needed to increase those numbers and to sustain the women already involved in agriculture.

That is why organizations like Annie's Project, a national risk-management education program for women launched in 2003, is so needed. Its 2012 SARE grant allowed the program to expand its reach by conducting two training events in Mississippi where Extension educators from across the South gathered to learn how to conduct Annie's Project workshops. A typical Annie's Project workshop brings in guest speakers from local agricultural businesses to discuss topics such as finances, human resources and marketing with local women farmers. The SARE-funded trainings drew 63 Extension educators from 12 universities—including three historically black universities—and many went on to conduct workshops in their communities. In Mississippi alone, more than 16 educators went on to hold local Annie's Project workshops.

For more information on this project, see sare.org/projects, and search for project number **ES12-113**.

SARE in Mississippi, 2021-2026

This is a summary of recent SARE-funded activities and impacts in the state. To search all SARE projects visit projects.sare.org. For a list of all projects in Mississippi visit projects.sare.org/state-fact-sheets/.

Grants awarded

Total awards: **23 grants**

- 1 Farmer/Rancher
- 2 Research and Education
- 3 Professional Development Program
- 2 On Farm Research/Partnership
- 1 Graduate Student
- 2 Education Only
- 12 PDP State Program [2]

Total funding: **\$1,453,811**

- \$14,909 Farmer/Rancher
- \$799,925 Research and Education
- \$234,737 Professional Development Program
- \$49,778 On Farm Research/Partnership
- \$14,032 Graduate Student
- \$72,838 Education Only
- \$267,592 PDP State Program [2]

[2] The Professional Development Program (PDP) State Program is a non-competitive award that funds the activities of the state coordinator(s). See more below.

Farmer and rancher impacts

SARE grantees have reported the following impacts from their projects:

2,494 farmers participated in a SARE-funded project

65 farmers changed a practice

Learn about local impacts at:
southern.sare.org/sare-in-your-state/mississippi/

Contact Your SARE State Coordinator

SARE sustainable ag coordinators run state-level educational programs for Extension and other ag professionals, and many help grant applicants and recipients with planning and outreach. Visit southern.sare.org/state-profiles/mississippi/ to learn more.
