What is SARE?

Since 1988, the Sustainable Agriculture Research & Education (SARE) program has been the go-to USDA grants and outreach program for farmers, ranchers, researchers and educators who want to develop innovations that improve farm profitability, protect water and land, and revitalize communities. To date, SARE has awarded over $333 million to more than 7,794 initiatives.

SARE is grassroots with far-reaching impact

Four regional councils of expert practitioners set priorities and make grants in every state and island protectorate.

SARE communicates results

SARE shares project results by requiring grantees to conduct outreach and grower engagement; and by maintaining an online library of practical publications, granteeproduced information products and other educational materials.

SARE: Advancing the Frontier of Sustainable Agriculture in...

Mississippi

Project Highlight: Advancing Opportunities for Women Farmers

Women farmers accounted for 30 percent of farmers nationwide in 2012, according to the Census of Agriculture, and 14 percent of them were principal operators. But while those numbers are encouraging, support and outreach is needed to increase those numbers and to sustain the women already involved in agriculture.

That is why organizations like Annie’s Project, a national risk-management education program for women launched in 2003, is so needed. Its 2012 SARE grant allowed the program to expand its reach by conducting two training events in Mississippi where Extension educators from across the South gathered to learn how to conduct Annie’s Project workshops. A typical Annie’s Project workshop brings in guest speakers from local agricultural businesses to discuss topics such as finances, human resources and marketing with local women farmers. The SARE-funded trainings drew 63 Extension educators from 12 universities—including three historically black universities—and many went on to conduct workshops in their communities. In Mississippi alone, more than 16 educators went on to hold local Annie’s Project workshops.

For more information on this project, see sare.org/projects, and search for project number ES12-113.

SARE in Mississippi

southern.sare.org/sare-in-your-state/mississippi

$2,435,583 in total funding

44 grant projects

(since 1988)

For a complete list of grant projects state by state, go to www.sare.org/state-summaries

www.sare.org
SARE Grants in Mississippi

Total awards: **44 grants**

- 4 Sustainable Community Innovation
- 13 Professional Development Program
- 11 Farmer/Rancher
- 4 Graduate Student
- 11 Research and Education
- 1 On Farm Research/Partnership

Total funding: **$2,435,583**

- $64,348 Sustainable Community Innovation
- $1,041,533 Professional Development Program
- $122,783 Farmer/Rancher
- $47,722 Graduate Student
- $1,144,200 Research and Education
- $14,997 On Farm Research/Partnership

Find a complete list of projects on page 3.

SARE's Impact

53 percent of producers report using a new production technique after reading a SARE publication.

79 percent of producers said they improved soil quality through their SARE project.

64 percent of producers said their SARE project helped them achieve higher sales.

Learn about local impacts at: southern.sare.org/sare-in-your-state/mississippi

Contact Your SARE State Coordinator

SARE sustainable ag coordinators run state-level educational programs for Extension and other ag professionals, and many help grant applicants and recipients with planning and outreach. Visit southern.sare.org/state-pages/mississippi to learn more.

For detailed information on SARE projects, go to www.SARE.org

SARE is funded by the USDA’s National Institute of Food and Agriculture (NIFA).

This report includes summaries of competitive grant programs only. Some competitive grant programs that are no longer offered may be included or excluded from the totals in this report depending on the grant program and SARE region.
AGRICULTURE PROJECTS FUNDED IN MISSISSIPPI
by USDA's Sustainable Agriculture Research and Education (SARE) Program

Mississippi has been awarded $2,435,583 grants to support 44 projects, including but not limited to, 11 research and/or education projects, 13 professional development projects and 11 producer-led projects. Mississippi has also received additional SARE support through multi-state projects.

### Improving Conservation Practices and Soil Health in Sweet Potato through Cover-It-Up
- **Project #:** ES20-153
- **Title:** Improving Conservation Practices and Soil Health in Sweet Potato through Cover-It-Up
- **SARE Support:** $65,220
- **Project Leader:** Dr. Bill Burdine, Mississippi State University Extension

### Meat Chemistry and Cuisine: Using a proven method to train extension agents and other professionals serving small-scale and limited resource producers
- **Project #:** ES20-156
- **Title:** Meat Chemistry and Cuisine: Using a proven method to train extension agents and other professionals serving small-scale and limited resource producers
- **SARE Support:** $80,805
- **Project Leader:** Dr. Derris Burnett, PHD, Animal and Dairy Sciences Mississippi State Univer

### Growing Your Local Food System and Its Brands
- **Project #:** ES18-138
- **Title:** Growing Your Local Food System and Its Brands
- **SARE Support:** $79,999
- **Project Leader:** James Barnes, Mississippi State University

### Transition to Sustainability in Small-Scale Vegetable Production: Hands-on training for agriculture professionals and educators
- **Project #:** ES17-131
- **Title:** Transition to Sustainability in Small-Scale Vegetable Production: Hands-on training for agriculture professionals and educators
- **SARE Support:** $79,520
- **Project Leader:** Keith Benson, Alliance of Sustainable Farms

### Cover It Up: Train-the-trainer program to expand knowledge and utilization of cover crops in Mississippi
- **Project #:** ES17-132
- **Title:** Cover It Up: Train-the-trainer program to expand knowledge and utilization of cover crops in Mississippi
- **SARE Support:** $65,222
- **Project Leader:** Dr. Bill Burdine, Mississippi State University Extension

### Grass-Fed Beef in the Southeast: from Seed to Plate
- **Project #:** ES16-126
- **Title:** Grass-Fed Beef in the Southeast: from Seed to Plate
- **SARE Support:** $83,185
- **Project Leader:** Dr. Brandi Karisch, Mississippi State University

### Reducing Water Usage and Energy Costs Through Improved Irrigation Management
- **Project #:** ES16-125
- **Title:** Reducing Water Usage and Energy Costs Through Improved Irrigation Management
- **SARE Support:** $76,656
- **Project Leader:** Curt Lacy, Mississippi State University

### Sustainability Training in Agricultural Resources Systems (STARS): A Train-the-Trainer Model for Agriculture and Natural Resources Professionals
- **Project #:** ES16-125
- **Title:** Sustainability Training in Agricultural Resources Systems (STARS): A Train-the-Trainer Model for Agriculture and Natural Resources Professionals
- **SARE Support:** $78,269
- **Project Leader:** Leslie Burger, Mississippi State University

### Building the Capacity of Educators to Help Women Farmers and Ranchers in Southern States Improve Agricultural Sustainability Using ANNIES Methodologies
- **Project #:** ES12-113
- **Title:** Building the Capacity of Educators to Help Women Farmers and Ranchers in Southern States Improve Agricultural Sustainability Using ANNIES Methodologies
- **SARE Support:** $79,100
- **Project Leader:** Dr. Bobbie Shaffett, Mississippi State University

### Strengthening the Goat Industry: A National Goat Conference
- **Project #:** ES09-098
- **Title:** Strengthening the Goat Industry: A National Goat Conference
- **SARE Support:** $80,000
- **Project Leader:** Angela McKenzie-Jakes, Florida A&M University

### Train the Trainer: a holistic approach to Integrated Resource Management and Grassland Revitalization
- **Project #:** ES04-073
- **Title:** Train the Trainer: a holistic approach to Integrated Resource Management and Grassland Revitalization
- **SARE Support:** $93,908
- **Project Leader:** Charles Flowers, Mississippi State University Extension Service

### Training in Sustainable Systems Approach to Production, Harvesting, Processing and Marketing of Value Added Syrup Crops in MS and Surrounding States
- **Project #:** ES98-041
- **Title:** Training in Sustainable Systems Approach to Production, Harvesting, Processing and Marketing of Value Added Syrup Crops in MS and Surrounding States
- **SARE Support:** $99,912
- **Project Leader:** William Patton, Alcorn Cooperative Extension Program
